

weekly update

Friday December 10th, 2021

Happy Friday Greendale Families.

Another awesome week at Greendale that really highlighted how amazing our community is. Here are a few of the things that really highlight the generosity, community mindedness, and overall fantastic citizenship qualities that you as parents have helped us foster in the students of Greendale:

- This week wrapped up our school Boot Drive. I believe that every student in the school now has a pair of boots that will see them through the winter months.
- Project Share – Greendale won the school competition again this year. Your contributions amounted to over 1100 lbs of goods. This will support many families in Niagara Falls.

Holiday cards – Our students created many Holiday cards that will be delivered to Long Term Care facilities and Hospitals throughout Niagara.

On top of these initiatives our students are always pitching in around the school to make it a great place.

Rapid Antigen Test Kits – Thanks for taking the time to complete the form through School Cash On-line about how you would like to receive the kits. A reminder that they will be available for pick up on Monday, December 20th and for those that would prefer they go home with their child, they will come home on December 21st.

Congratulations to our Boys' Volleyball team for competing in the DSBN tournament. They represented our school in a positive way and had a lot of fun in the process.

Your Voice Matters survey coming to DSBN. See link below for information:
