

Good afternoon, Greendale families.

Yesterday, you should have received information about our School Council's fundraiser. There is a short timeline with this fundraiser, so thanks for taking the time to look it over.

We've been doing quite well with attendance at the school the last week or two. This is in large part in all of you completing the COVID screening tool for your children every morning. Thanks for continuing to do that.

The EQAO provincial assessment is returning this year for our grade 3 and 6 students. Our teacher's have begun preparing them for this, and will continue to do this until the latter part of May when they actually do the assessment.

This week, we have made the Boys and Girls Intermediate basketball teams. They will start their season on the Monday after March Break.

A highlight from the week has been Mr. Darling's annual tapping of our Maple Trees and teaching our Kindergarten students about the process of collecting the sap and finally making some of our own Greendale Maple syrup. It was awesome to see the curious looks on the student's faces as they observed the sap running.

A reminder that next Friday is Beach Day at Greendale.

Have a great weekend.

C. Glauser, Principal Greendale P.S.
